VITR PANEL[®]

Products uniquely available through **VITRAGROUP™** and developed for specific applications such as:

Vitrapanel EC™, a cost effective tunnel lining non attractive to dirt, easy to install, non glare, perfect reflectivity for driver safety.

Vitrapanel Platinum™, coated with Vitraflon V700, a fluoropolymer system for extreme UV resistance, colour and gloss retention, used in external applications such as noise protection and bridge lining.

These products are guaranteed for up to 40 years and can be manufactured in any colour.
